DIRECTIONS FOR USE:

SHAKE WELL BEFORE USE

APPLICATION:

Purafish can be applied through spray or dripper systems or as foliar spray.

It should be diluted with water before spraying onto foliage.

FOLIAR APPLICATION RATE:

For most crops 5-8L/ha in a minimum of 400L of water.
Do not store diluted or mixed product.

SOIL APPLICATION RATE:

5-20L/ha applied 1-3 times annually.

When mixing with other liquid fertilizers, test for compatibility with a small quantity in a jar.

CONDITIONS OF SALE:

Every care is taken during the manufacture of this product. However, as environmental conditions can vary considerably, no responsibility can be taken by the manufacturer, importer or his agents for any injury, damage, loss or other results following the use or misuse of this product.

Benefits of Purafish include:

- Provides natural nutrients immediately available to the plant
- Increased microbial and earth worm activity
- Natural chelating properties
- Improved efficiency of other fertilizers

CAUTION:

Avoid contact with eyes. Keep out of reach of children.
If swallowed seek medical advice.
Do not store in direct sunlight.
