

MKP
Mono Potassium Phosphate
22.5% P, 28.4% K

Benefits of MKP

- Concentrated combination of P & K without N
- Fully water soluble
- Ideal for fruit fill and late stages of production
- Ideal for foliar application
- Ideal for fertigation

Application:

Foliar sprays	3-5 kg/ha in 800-2000L water/ha
Low volume sprays	1-2kg/ha in 20-50L water/ha
Fertigation	50-100kg/ha at a time. Repeat as required.

Chemical Composition:

Phosphorus (P)	22.5%
Potassium (K)	28.4%

Physical Properties:

Colour	White
Granulometry	Crystalline
