

OMNISAP TEST PROTOCOL

1. Preferably take samples prior to 10am in morning, or while the plants are actively transpiring.
2. Use small labelled bags to contain sample. Fill bag with appropriate plant part as per Omnisap manual on CD. Usually the youngest mature leaf.
3. **Attach corresponding sample labels** to sample bag and recording sheet. Mark appropriate box to indicate SAP test on sample bag. Sample labels and bags can be obtained from an Omnia agent.
4. Refrigerate sample if possible prior to mailing, or at least keep in a cool place. **DO NOT FREEZE.**
5. Fill out sample recording sheet using this link:
<https://omnia.com.au/sample-forms/>
Email recording form to your local Agronomist or **info@omnia.net.au** referencing the location of the SAP. **DO NOT INCLUDE WHEN POSTING.**
6. Place in an Express post bag (Be sure to fill out senders address, and SIGN DANGEROUS GOODS DECLARATION), send to:

APAL - PO Box 155, Welland, SA 5007
(Courier address, U 3, 11 Ridley Street, Hindmarsh, SA 5007)

Western Australia
APAL - PO Box 174, Belmont WA 6984
(Courier Address: Unit 4, 158 Francisco Street, Belmont WA 6104)
7. Results take around 7 days from time of posting to be returned. They will come back to you via email.

**ANY QUESTIONS, PLEASE CONTACT YOUR LOCAL AGRONOMIST OR OMNIA HEAD
OFFICE 03 5133 9118**
