

OMNISOIL TEST PROTOCOL

1. Use small labelled bags to contain sample. Half fill bag with soil representative of site being tested.
2. **Attach corresponding sample labels** to sample bag and recording sheet. Mark appropriate box to indicate test type required on sample bag. (If you require a molybdenum test, write +Mo on the bag) Sample labels and bags can be obtained from an Omnia agent.
3. Fill out sample recording sheet from this link:
<https://omnia.com.au/sample-forms/>
Email recording form to your local Agronomist or info@omnia.net.au referencing the location of the soil. DO NOT INCLUDE WHEN POSTING.
4. Place in an Express post bag (Be sure to fill out senders address and send to):
APAL - PO Box 155, Welland, SA 5007
(Courier address, U 3, 11 Ridley Street, Hindmarsh, SA 5007)

Western Australia
APAL - PO Box 174, Belmont WA 6984
(Courier Address: Unit 4, 158 Francisco Street, Belmont WA 6104)
5. Results take around 14-21 days from time of posting to be returned. They will come back to you via email.

**ANY QUESTIONS, PLEASE CONTACT YOUR LOCAL AGRONOMIST OR OMNIA HEAD
OFFICE 03 5133 9118**
