

OmniSure - Bananas

Bananas require a balanced crop nutritional program to perform at their best. Trace elements, especially zinc, calcium and boron are critical for plant health, yield and quality.

OmniSure™ is a highly bio available range of trace elements, using a new chelation technology that has excellent compatibility with agricultural chemicals and fertilisers. The OmniSure range is manufactured to ensure 100% chelation, resulting in improved plant uptake and performance. This premium technology allows compatibility with notorious chemicals that normally react with other trace element products. The OmniSure range has been developed to achieve unmatched plant uptake with convenient tank mix compatibility to reduce application passes.

Be sure with OmniSure!

Benefits

- **Highly bio available**
- **High levels of compatibility with agricultural chemicals**
- **Cost effective**
- **Can be tank mixed with many other fertilisers for fertigation or foliar application**
- **Compatible with humic acid**

Product	Analysis (%w/v)						
	B	Cu	Fe	Mn	Zn	N	S
OmniSureBor	15.00					6.50	
OmniSureCop		12.60				7.90	
OmniSureIron			6.10			9.20	3.10
OmniSureMang				10.40		9.30	6.40
OmniSureMulti	0.80		3.00	1.90	3.00	7.40	2.70
OmniSureZinc					12.70	6.80	
OmniSureZMC		0.80		5.70	4.60	8.00	3.40

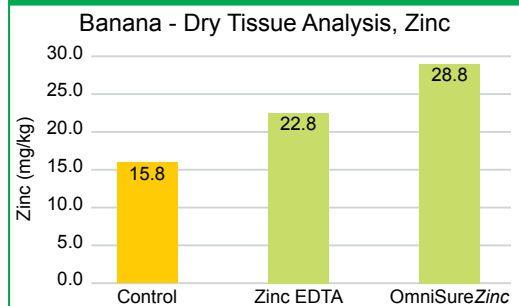

Foliar Uptake - Bananas - OmniSure v EDTA

OmniSureZinc increased zinc levels by 85% compared to Zinc EDTA.

OmniSureZinc offers superior uptake to EDTA while giving similar compatibility with ag chemicals.

Banana Zinc Foliar – Omnisure vs EDTA, Innisfail Oct 20
